

To Whom It May Concern: I am writing this email to let you know the importance of allowing FM translators to continue in service. My family and I listen to KLOVE radio every day as well as support the station with a monthly financial contribution. The station keeps us in touch with what is happening in the world, our country and our local community from a Christian perspective. The music and messages serve as an inspiration to my family that we would not have without KLOVE radio. When we are in the car with my children, I am thankful to have a Christian radio station that we can all listen to, where I know my children won't hear inappropriate lyrics. KLOVE serves the public interest by bringing the word of Jesus Christ to people who would not otherwise hear it...the homebound, the lonely, even those just changing dials who are captivated by the message. Please do not take this valuable resource from our community and our country.
